Step 1. Create a new section

On the [previous step](#), we have configured a development package and set it as the current Creatio package. On this step, set up the new section's interface using the built-in **no-code tools**.

Set up the section

Use the **Section Wizard** to set up a section.

To do this:

1. Click  to open the System Designer.
2. Click [*Section wizard*] in the [*System setup*] block.
3. **Fill out the fields** for a new section.
 - Set [*Title*] to "Classes".
 - Set [*Code*] to "UsrClass".
 - Set [*Workplace*] to "Sales".
4. Click [*Set up page*] to set up a section page.

SET UP PAGE

5. **Add fields** to the page:
 - a. Select a field of the desired type in the menu on the left.
 - b. Drag&drop the field to the page.
 - c. Fill out the properties of the field:

Add these fields to the page:

Title	Code	Data type	Required
Name	UsrName	String	Required
Code	UsrCode	String	Required
Coach	UsrCoach	The existing "Employee" lookup	Required
Periodicity	UsrPeriodicity	A new "Periodicity" lookup	Required
Comment	UsrComment	String	Optional
Is Active	UsrIsActive	Boolean	Optional

The screenshot shows the 'SECTION WIZARD' interface. On the left, the 'Classes' panel is expanded, showing a list of fields. A red box highlights the 'Periodicity' field, which is a 'Lookup' type. Other fields in the list include 'Name *', 'Code *', 'Coach *', 'Comment', and 'Is Active'. The main workspace shows a 'DETAILS AND NOTES' section with a 'Notes' field and a rich text editor. At the bottom, there are buttons for 'NEW FIELDS GROUP' and 'NEW DETAIL'.

To **add a new lookup** for the "Periodicity" field:

a. Click [*Add new lookup*].

The screenshot shows the 'Data source' dialog box. The 'Lookup' field is selected, and a red box highlights the '+' icon in the bottom right corner, indicating where to click to add a new lookup.

b. **Fill out** the lookup's properties:

- Set [*Title*] to "Periodicity";
- Set [*Code*] to "UsrPeriodicity".

The image shows a 'New column' dialog box with a 'General' tab. At the top, there are 'SAVE' and 'CANCEL' buttons. Below the tab, a 'New lookup' sub-dialog is open. This sub-dialog has a title 'New lookup' and three input fields: 'Title *', 'Periodicity' (with a search icon), and 'Code *'. Below these is a 'UsrPeriodicity' field. At the bottom of the sub-dialog are 'CANCEL' and 'SAVE' buttons. Below the sub-dialog, there is a 'Lookup view' section with two radio buttons: 'Selection window' (selected) and 'List'.

6. Aside from the fields, the section page will also contain the class exercise schedule. **Add a new detail** (using the [*New detail*] button) to display group classes on the section page.

The screenshot displays a software interface with a top navigation bar containing the tabs 'ATTACHMENTS AND NOTES', 'SCHEDULE', and 'FEED'. Below this, there are two main sections: 'Detail: Attachments' and 'Notes'. A rich text editor toolbar is positioned above a large, empty text area. The toolbar includes icons for undo, redo, bold (B), italic (I), underline (U), text color (A), background color (Ab), bulleted list, numbered list, indent, outdent, and full screen. At the bottom left of the interface, there are two blue buttons: 'NEW FIELDS GROUP' and 'NEW DETAIL'. The 'NEW DETAIL' button is highlighted with a red rectangular box.

Click [*Add new detail*] -> [*Add using new object*].

Detail *

Title *

Code *

What records to show on the page?

Where detail column *

Equals to page column *

Fill out the detail's properties:

- Set [*Object title*] to "Group training".
- Set [*Detail title*] to "Group trainings".
- Set [*Code*] to "UsrGroupTraining".
- Set [*Make the list editable*] to yes.
- Set [*Connect by lookup*] to "Classes".
- Set [*Lookup column title*] to "Class".
- Set [*Lookup column code*] to "UsrClass".

7. Save the section. At this point, the section is already available in Creatio.

8. Set up the way **the columns on the section record list are displayed** separately.

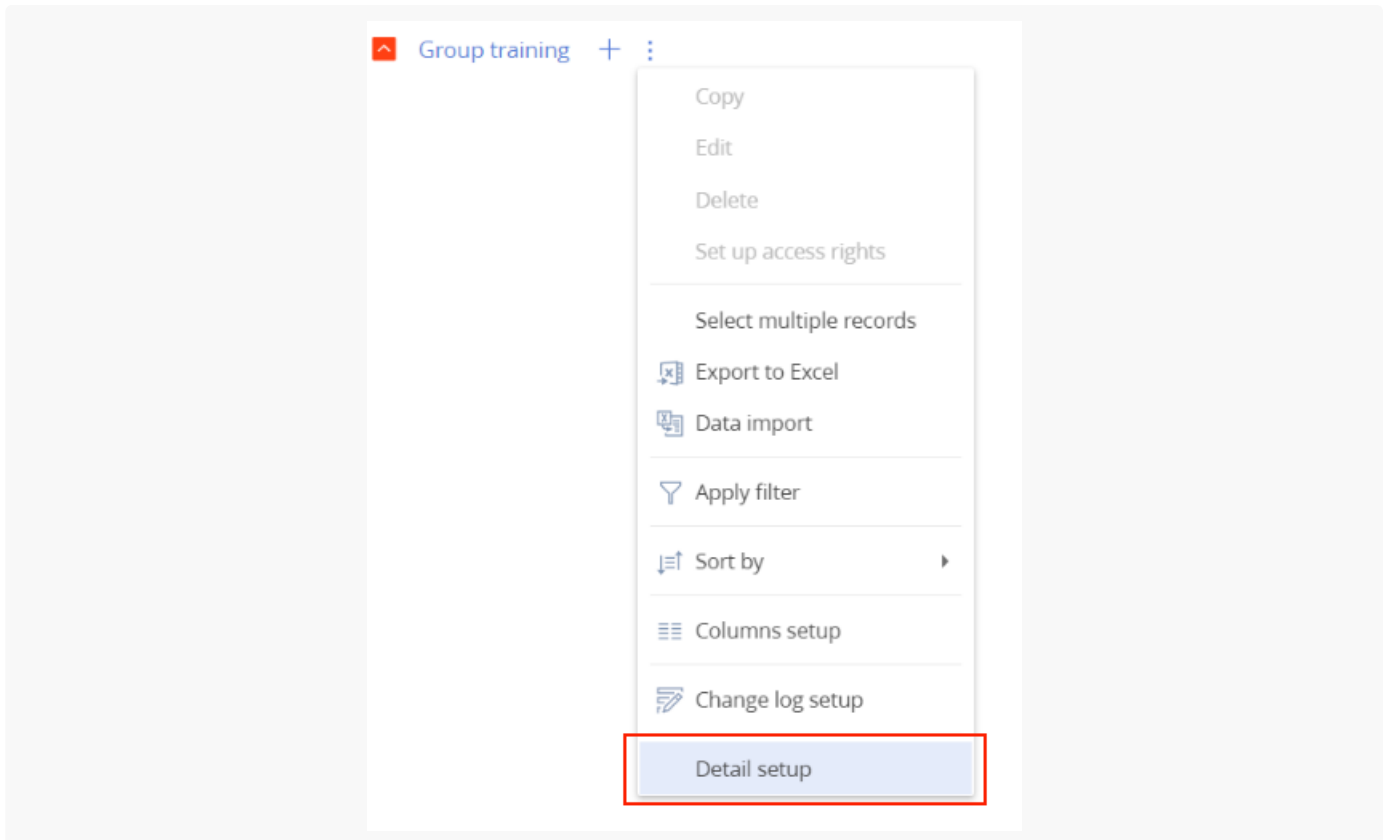

- Open the section list.
- Click [*View*] -> ([*Select fields to display*] in the toolbar.

c. Click [Save].

Set up a detail

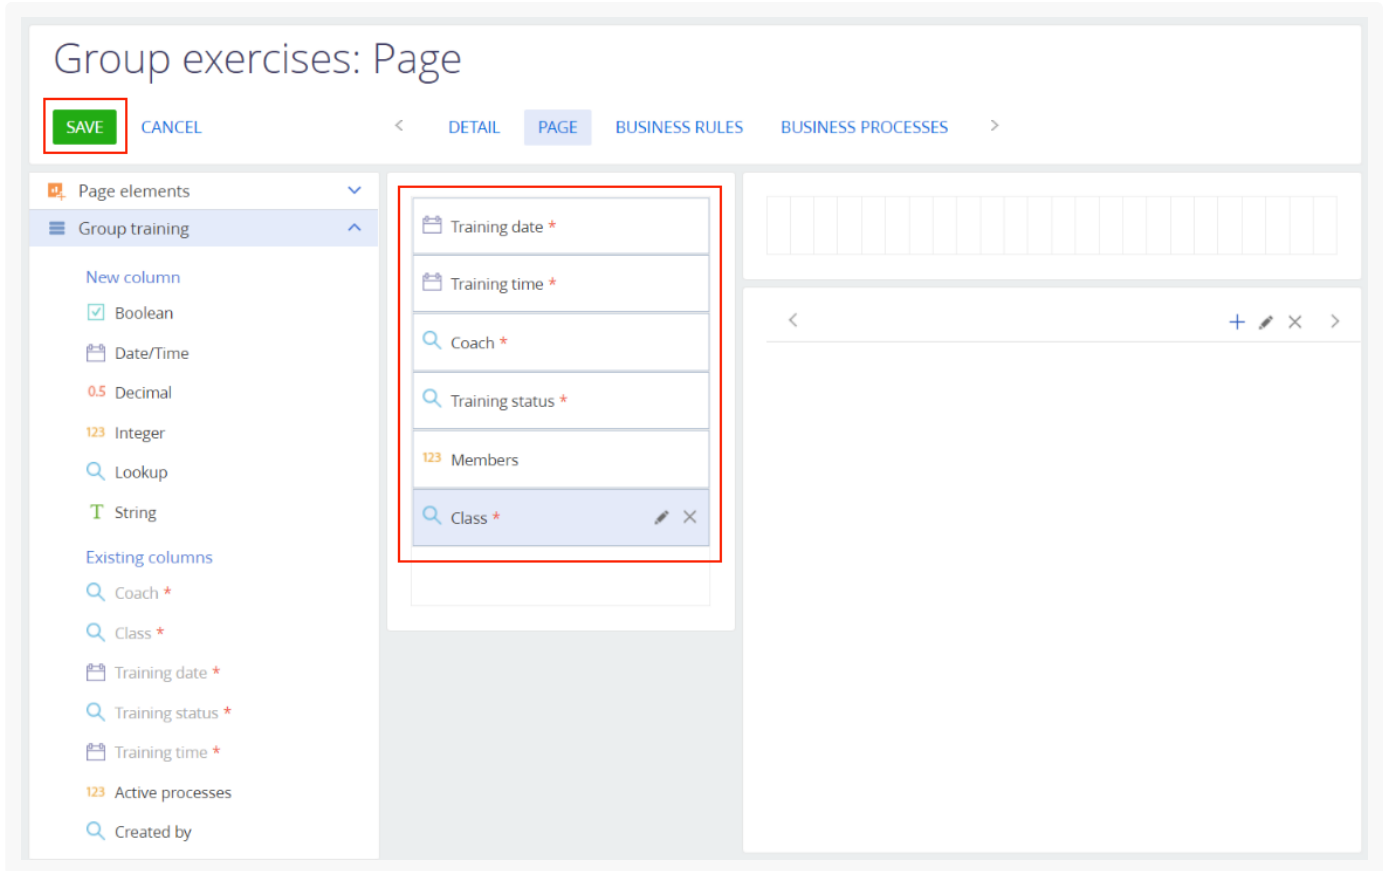

Set the group exercise schedule for the section as the final step in creating a new section by adding the details' required fields and choosing how they should appear in the detail list. You can do this directly on the class's page.

1. Click [*New*] to create a new record in the [*Classes*] section's list. On the page that opens, go to the "Group exercise" detail and open the **Detail Wizard**. Select [*Detail setup*] in the detail's menu.

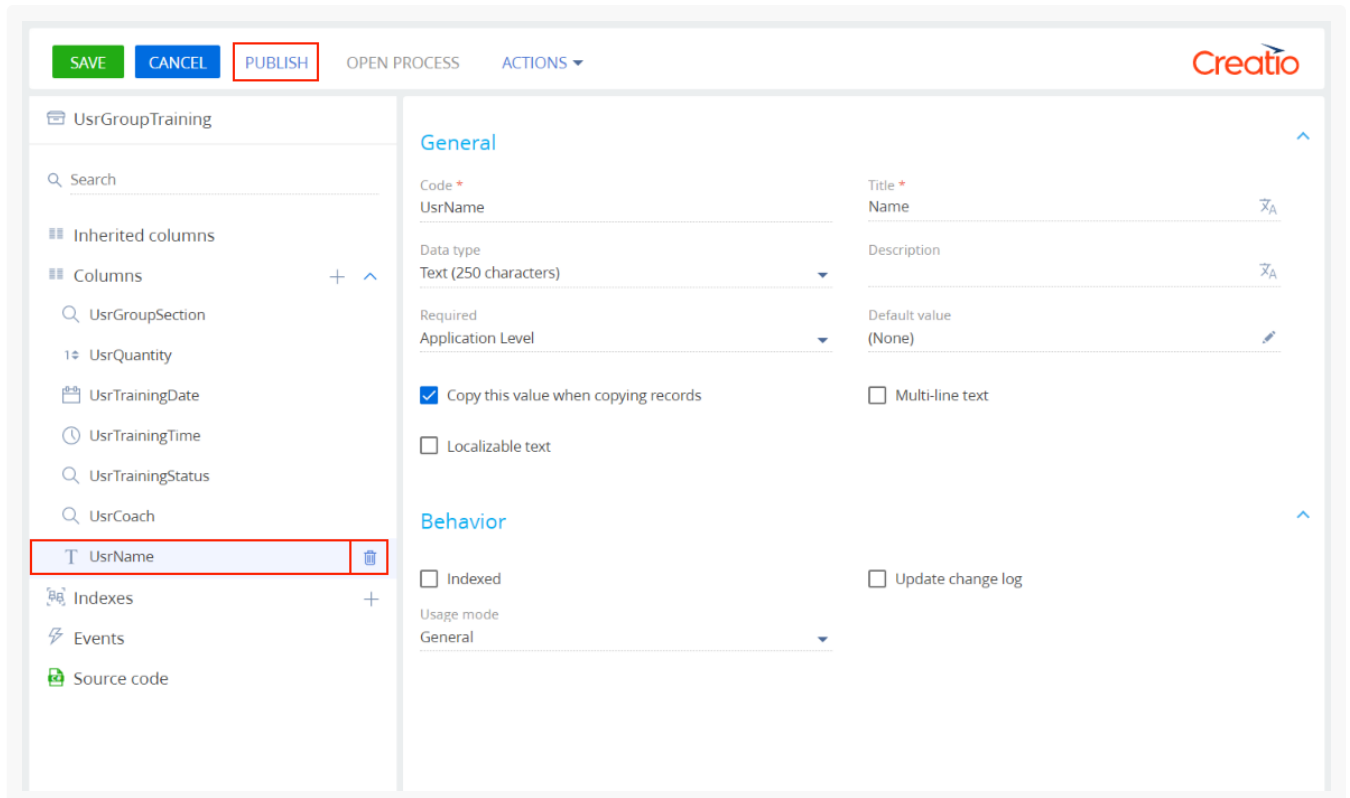

2. Use the Detail Wizard to **set up the detail's fields** on the [Page] tab. Note that Creatio adds a required field "Class" when creating a detail in the Section Wizard. You should just drug&drop this field to the page.

[Title]	[Code]	Data type	Required
Training date	UsrTrainingDate	Date	Required
Training time	UsrTrainingTime	Time	Required
Coach	UsrCoach	The existing "Employee" lookup	Required
Training status	UsrTrainingStatus	A new "Training status" lookup	Required
Members	UsrMembers	Integer	Optional
Class	UsrClass	The existing "Classes" lookup	Required

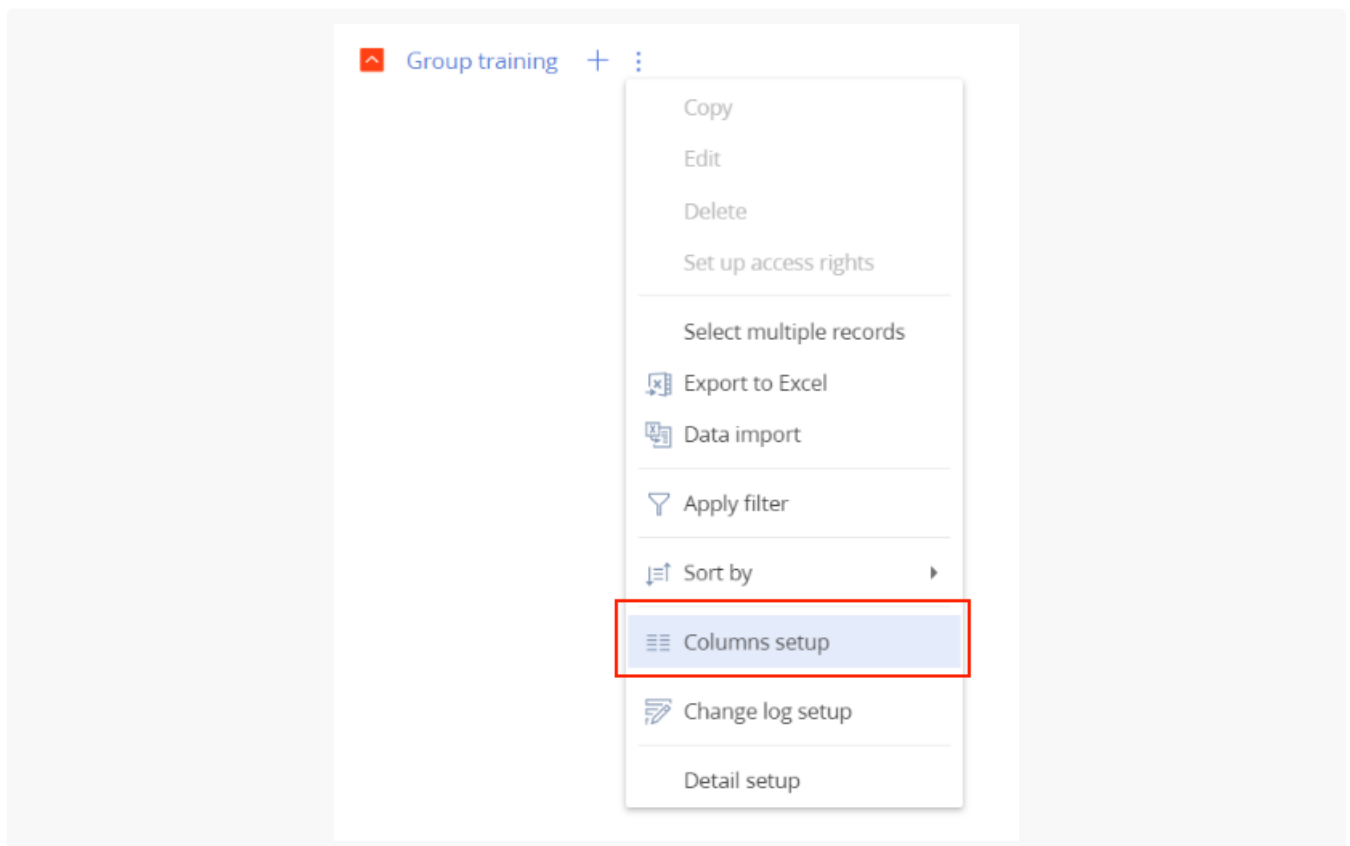

To add a new lookup for the “Training status” field:

- a. Click [*Add new lookup*].
 - b. **Fill out** the lookup’s properties:
 - Set [*Title*] to "Training status".
 - Set [*Code*] to "UsrTrainingStatus".
 - e. Save the detail page.
3. Note that Creatio adds a required field “Name” when creating a detail in the Section Wizard. This field is not required for this example. Delete it.
- a. [Go to the \[Configuration \] section.](#)
 - b. As a result, the Section and Detail Wizard will create a set of required schemas and attached data in the “TryItPackage.” Select the “UsrGroupTraining” schema. This is the schema of the object on which the “Group trainings” detail is based.
 - c. Double-click the schema.
 - d. Delete the “UsrName” column from the object’s column list.
 - e. Click [*Publish*] to publish the schema.

4. The timetable detail is almost finished. **Set up the detail's columns** as the final step.

a. Select [*Columns setup*] in the detail menu.

b. Set up the detail's columns.

c. Click [Save].

As a result, we have fully configured the new section's interface. On the [next step](#):

- fill out the new lookups.
- add the gym number system setting.
- attach the new data to the development package.
