PRODUCTS: **MARKETING**

Use the [ *Campaigns* ] section in Creatio to plan and conduct marketing campaigns. Inform customers about your upcoming events, invite participants, get in touch with the contacts who are interested in your products and nurture your customer needs using personalized email correspondence.

## General campaign workflow

Planning and running automated marketing campaigns in Creatio involves more than simply adding a new record in the [ *Campaigns* ] section. A campaign may require adding new records in other sections, e.g., new trigger emails in the [ *Email* ] section. The general workflow for most campaigns is as follows:

1. **Define the goal**, the target audience, and the communication chain with potential or existing customers.
2. **Add a new campaign** in the [ *Campaigns* ] section and populate the campaign profile. Build a campaign diagram using the campaign designer elements.
3. **Create records** (trigger emails, events, and landing pages) that you plan to include in the campaign. Connect the campaign diagram elements to records in the corresponding sections.
4. **Start the campaign** and follow its progress in the campaign log. Creatio manages the status of campaign participants by analyzing their responses.
5. Once the campaign is finished, **view the dashboards** to see if your campaign reached its goal.

## Populate campaign profile

To run a campaign in Creatio, add a new record in the [ *Campaigns* ] section. To do so:

1. Open the [ *Campaigns* ] section.
2. Click [ *New campaign* ]. A new campaign page opens.

**Note.** If the “At the specified time” start mode is selected for a campaign, the start/end time of a campaign is displayed in the time zone of the user who created the campaign.

3. Populate the fields on the campaign page:

Database object	The name of the campaign. Populating this field enables accessing the Campaign Designer.
Start mode	Campaign start/stop options: You can start and stop campaigns manually or set up automatic start and end of a campaign at the specified time.
End mode	<ul style="list-style-type: none"> <li>“manual” – the campaign will be started/stopped manually by clicking the [ <i>Start campaign</i> ]/[ <i>Stop campaign</i> ] button.</li> <li>“at the specified time” – select this option to start/stop the campaign automatically at the specific date and time.</li> </ul> <p>Selecting this option enables additional [ <i>Scheduled start date</i> ]/[ <i>Scheduled end date</i> ] fields, where you can specify the scheduled start and end time. Click the [ <i>Schedule campaign</i> ] button to finalize planning the campaign time frame (Fig. 1).</p>
Owner	Select the employee responsible for the campaign.
utm_campaign	The UTM-mark containing the campaign name. It is used to track the lead sources received as a result of the campaign.

Fig. 1 Scheduling automatic start and stop of a campaign

The screenshot displays the Creatio Campaign Designer interface for a campaign named "The CRM Days Conference". The interface is divided into several sections:

- Header:** Includes the campaign name "The CRM Days Conference", a search bar "What can I do for you?", the Creatio logo (version 7.18.1.2800), and buttons for "SAVE", "CANCEL", "ACTIONS", "SCHEDULE CAMPAIGN", and "VIEW".
- Left Panel (Campaign Details):**
  - Name:** The CRM Days Conference
  - Status:** Planned
  - Start mode:** at the specified time
  - Scheduled start date:** 7/10/2021 1:00 AM
  - End mode:** manual
  - Start date:** (empty)
  - Next run:** (empty)
  - End date:** (empty)
  - Owner:** Мирный Евгений
  - utm\_campaign:** (empty)
- Right Panel (Campaign Flow):**
  - Navigation:** CAMPAIGN FLOW (selected), AUDIENCE, LINKED ENTITIES, ATTACHMENTS AND NOTES, FEED.
  - Filters:** <Start date> till <Due date>, All, Complete, Incomplete, In progress, Error, Suspended, History.
  - Flow Diagram:**
    - Start:** Registration form submitted (triggered by "Registration 3 days, form not submitted" and "10 days, regardless of result").
    - Steps:**
      - Reminder:** Triggered by "Registration 3 days, form not submitted" (3d, 4:00 AM).
      - Reactivation:** Triggered by "10 days, regardless of result" (10d, 4:00 AM).
      - Presentation:** Triggered by "Registration form submitted".
    - Transitions:** All steps lead to a goal "Reached the goal" when the status is "Satisfied".
    - Additional Elements:** An "Unsubscribed" status icon is visible on the right.

4. Click [ Save ].

As a result, a new campaign record will be added in the [ *Campaigns* ] section. You can now proceed with creating a [campaign diagram](#) in the Campaign Designer.
